AFGHANISTAN INTERNATIONAL AGRO EXPO

FROM FARM TO MARKET

The largest specialized and international event of agriculture, livestock, food industries, and agricultural trade in Afghanistan. With the participation of exhibitors, domestic and international companies, trade delegations, investors, government institutions, international organizations, and agriculture and livestock sector actors from Afghanistan, the region, and the world.

Date: 16-11 August 2026

Location: Afghanistan International Exhibition Center – Kabul

Organizer: Afghanistan Chamber of Agriculture and Livestock Products

Connecting production, innovation, investment, processing, trade, and market for a sustainable future in Afghanistan's agriculture and livestock sector.

Exhibition Introduction

The Afghanistan International Agriculture and Livestock Exhibition is the largest specialized event in the country in the field of agriculture, livestock, food industries, and agricultural trade, organized by the initiative of the Afghanistan Chamber of Agriculture and Livestock Products. This exhibition, with the participation of exhibitors, domestic and international companies, trade delegations, investors, government institutions, international organizations, and agriculture and livestock sector actors from Afghanistan, the region, and the world, provides a suitable platform for product presentation, trade development, investment attraction, technology transfer, and the creation of sustainable business cooperation.

Main Objectives of the Exhibition

- Introducing capacities, products, and investment opportunities in Afghanistan's agriculture and livestock sector.
- Developing domestic, regional, and international markets and supporting exports.
- Creating effective connections between producers, processors, traders, investors, and buyers.
- Introducing machinery, equipment, modern technologies, and smart agricultural and livestock solutions.
- Strengthening the value chain from production, processing, and packaging to trade and market.
- Expanding cooperation between the private sector, government institutions, international organizations, and trade delegations from regional and global countries.

Main Sections of the Exhibition

Agriculture, horticulture, and agricultural inputs
Livestock, poultry, fisheries, and beekeeping
Machinery, equipment, and modern technologies
Food industries, processing, and packaging
Trade, export, investment, and market development
